

LEPC
Grayson County Courthouse
Assembly Room
05/05/2022

Attendees: Stephanie Chandler, United Way of Grayson County; Rita Berkley, Sherman ISD-SHS; Jeff Lillis, Grayson County Health Dept.; Chris Wallentine, City of Denison; Jamee Wix, Visionary Home Health/7 Sisters Care; Virginia Hughes, Grayson County; Sam Friar, North Texas Municipal Water District; Moises Duran, City of Sherman OEM; Gene Senek, Branch Energy Partners; Sarah Somers, Grayson OEM; Chad Cummings, Texas AgriLife; Andrie Krahl, Atmos Energy

Meeting called to order at 9:00 a.m. by Gene Senek, LEPC Chairman

Approval of Minutes

Minutes were not available and tabled until June

Approval of Treasurer Report

Motion by Rita Berkley to approve the treasurer's report for April

Second by Stephanie Chandler

Vote: Motion carried

Resolved: Treasurers report approved

Business

The grant from Plains Pipeline was approved in the amount of \$11,000.00. The Shelter –in-Place brochure was discussed. Sarah Somers has a volunteer to do a draft. Items suggested to be added are: contact information for Code Red and the website for more information, phone number, QR code, and to be able to add more logos. We want to give access to anyone that wants to be able to print it—such as companies wanting to distribute to their employees. Hope to have approval at June meeting.

Andrie Krahl gave a presentation on Atmos Energy. They volunteer and invest in communities—schools, United Way, TCOG, food banks and more. They work with first responders and train them on leak detection and equipment. She reminded the group that you should call 811 five days for flags before digging.

Chris Wallentine asked about a cheat sheet for dispatchers. Sarah Somers said that all the players should be in the room to create a “what to do” sheet.

Public Announcements

Gene said that they are planning a lunch for first responders and will offer a tour of the plant. An email will be sent out.

No new business

Motion to adjourn at 10:00 a.m. by Moises Duran and seconded by Chris Wallentine.
